FOR IMMEDIATE RELEASE

November 7, 2011

Hempstead Chamber of Commerce Hosts Presentation of Opportunities in New Hempstead Development

On Wednesday, November 16, 2011, the Hempstead Chamber of Commerce will sponsor a presentation of business and employment opportunities available at the Mill Creek mixed use development site on North Main Street. At 6:30 in the Community Room of the Hempstead Library, Maria Rigopoulos, Mill Creek's Managing Director, will present the current status of the development and inform the attendees of opportunities for contracts and employment as the construction continues and as plans are made for operating the mixed use complex once it is finished. Ms Rigopoulos will be available to answer questions.

The area under development is at the North end of Main Street, occupying the space that formerly housed the Subaru Dealership. Building is well underway and looks promising as a first step in Hempstead Village's new look.

Light refreshments will be served. All are welcome. We will be looking forward to meeting you.

For information call the Chamber office at 516 476-2901 daily between noon and 2 P.M.
